*KN Nitrogen Kit is needed

CHANGING THE HANDPIECE'S CARTRIDGE

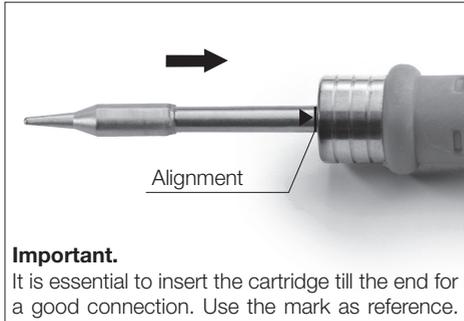

- Place the handpiece in the extractor and remove the cartridge.
- Place the handpiece on top of the new cartridge, press it slightly down and remove the handpiece from the extractor.

Press the cartridge into the opening A, B or C:

- For straight C210 cartridges.
- For curved C210 cartridges.
- For C245 cartridges.

CHANGING THE HANDPIECE'S CARTRIDGE

Nitrogen handpiece T245-NA:
Extract the nozzle before changing the cartridge.

Untight the screw before changing the cartridge and tight again once the cartridge is properly inserted.
T470 and **T245-NA** with set screw.

WARNING: It is essential to tighten this screw for the tool to function.

ACCESSORIES

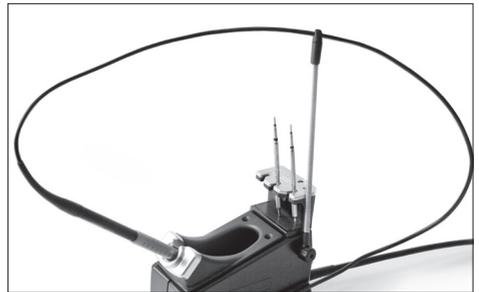

Fume extractor

Specially designed for the JBC Series T210, T245 and T470 handpieces. Easily clips onto the handpiece and can be quickly removed for easy maintenance.

CC8200 Cable collector

Use to declutter work bench.

MAINTENANCE

We recommend periodic cleaning of the metal ring and handpiece support using a solvent.

The handpiece has a life period and it is normal that due to wear it might be necessary to replace it.

Due to the nature of its use, the handpiece has a limited life and may require replacing.

TECHNICAL SPECIFICATIONS

HANDPIECES

- **T210** Micro Handpiece.

For high precision work, SMD, etc.

- **T245** Handpiece.

For general soldering work.

- **T470** Handpiece.
